CONSISTENT QUALITY THAT KEEPS YOUR CUSTOMERS COMING BACK

FACTORY WITH **CUTTING-EDGE EQUIPMENT**, PROCESSES THAT COMPLY WITH **ISO 9001:2008 CERTIFICATION**, AND **EXPERIENCED ENGINEERING** TALENT GIVE YOU THE QUALITY YOU CAN'T GET FROM IN-STORE REFILLING OR OFF-SHORE SUPPLIERS

30,000 sq. ft. plant. State-of-the-art equipment.

MANUFACTURING QUALITY

MANUFACTURING: IT'S THE CONSISTENCY OF OUR PROCESSES THAT MAKES THE DIFFERENCE

INSPECTION/TESTING OF INCOMING CARTRIDGES

- Visual inspection by our 13-person team
- All circuits tested for electrical functionality

PREPARATION AND CLEANING

- Waste ink removed
- Cartridges cleaned with steam and ionic methods
- Spot inspections by production experts

FILLING AND SEALING

- Cleaned cartridges are filled using custom-designed equipment
- Vacuum filling techniques for proper ink volume levels
- Cartridges sealed to ensure leak-proof results

TESTING

- All cartridges print tested on real printers by trained professionals
- 72-hour hold, followed by retest against military standards

PACKAGING

- Final cleaning, then heat-sealed in vapor resistant bag or
- Vacuum-sealed and boxed or clammed
